

Sample CSI: Title of Your Community Service Initiative

This document should be an informative essay sharing with the judges what your community service initiative is, and why the initiative is important to you. As appropriate, include information about what you have done with your CSI before you became a titleholder and since becoming a titleholder. Include in the essay information about organizations you partner with and how you would expand your initiative as the state titleholder. Any statistics you provide should be referenced with citations.

Explain why you believe being a state titleholder is important as it relates to your CSI. Include information as to what experience you have and how that experience will leverage your ability to be an effective Miss Washington.

Do not use acronyms in your Fact Sheet or CSI essay without explaining what they are. As an example, American Heart Association (AHA) or American Cancer Society (ACS) or National Alliance of Mental Illness (NAMI). Assume your reader has no knowledge or understanding of the organization. Do not use acronyms related to your job without explaining what the acronym means. As an example, administrative assistant (AA), personal assistant (PA), certified nursing assistant (CNA), etc.

The essay should be no more than one page. Like the fact sheet, your essay will tell a lot about your commitment to your CSI, especially if your essay is brief. It also tells a lot about you and your professionalism if there are typographical errors, punctuation mistakes, or you don't provide citations for facts or statistics.
